Friday March 22nd	Year 5 Bikeability Dancefest Year 6 pupils
Monday 25th March	Hereford Festival (Year 2 Choir)
Tuesday 26th March	Hereford Festival (Year 2 Choir) Year 4 Swimming Class 2EGS Parents Evening
Wednesday 27th March	2.00pm—KS1 Spring Performance (parents invited) 3.30—5.00pm—Parents Evening
Thursday 28th March	Air Ambulance Workshop 4.00—7.00pm—Parents Evening
Friday 29th March	2.00pm—KS1 spring Performance (parents invited) Dancefest Year 6 pupils

## Tooth Fairy Visit

The Tooth Fairy recently visited pupils in Reception, Year 1 and Year 2. Year 1 pupils learnt that too much sugar is bad for their teeth and then looked at the amount of sugar in different food and drinks. They were shocked to learn that a smoothie can contain more sugar than a bottle of coke! The children then enjoyed playing a game, where they linked different food and drinks to healthy and less healthy teeth.

In Year 2, the tooth fairies paid the children a visit to talk about how to keep their teeth clean and healthy. The children looked at the different amounts of sugar in a variety of foods and drinks and sorted which items would be better for their teeth. Some of the children tried the disclosure tablets to see where they needed to clean their teeth and had fun looking at their purple teeth in the mirror. The children had lots of fun brushing up on their cleaning skills, practising on a giant pair of plastic teeth and all the children went home with a brand new tooth brush and tube of tooth brush.

## Chinese New Year

This half term Reception have been learning about Chinese New Year and China.

We were very lucky to have Glen Parry come into school and share his lion dance with us. The children loved participating in the workshops and created their own dragon and lion dances.

We have had a Chinese restaurant in our role play, made long and short dragons and have even pretended to fly to China. The children have had lots of fun and also learnt lots of new facts.

## Year 5 Planetarium visit

On Tuesday 12th February Year 5 were visited by a Planetarium company.

From the outside the Planetarium looked like a charcoal coloured igloo but inside it was like the school whiteboards but dome shaped.

Although it looked big outside, inside was much smaller than expected. The man used a computer to turn on the Planetarium, it was really cool, he zoomed in so that we could look at the moon more effectively. We could also see the stars. We all thought it was amazing.

Then we watched a film which talked about other planets, such as Neptune, Venus and Mars. The film talked about planets we could live on, and explained how much air we would need and how much water you'd need to drink to stay alive, it was a large amount!

We talked about Spacesuits and how being attached to a zip wire would enable you to travel around in Space.

Pluto which was shown on the film showed snowmobiles, skiing and snow boards, this was because it was colder, also there was less gravity so you could perform back and front flips and cars needed special grips so that they could stay on the ground.

We all really enjoyed the Planetarium visit.  
Jasmine, Nickolas, Daniel 5M

## Wizard of Oz Day

On the 29<sup>th</sup> January, we celebrated the story of 'The wizard of Oz' and took part in different activities throughout the day as part of 'Wizard of Oz day'. In KS1 the children dressed up as their favourite characters and were lucky enough to watch a short production of the story, which they thoroughly enjoyed! In 1NH the children also spent the day singing songs from the film, making 'yellow brick road' cakes, and creating their very own 'yellow brick road' to rein act the story. The children had so much fun !and learnt a lot about the story. A big thank you to the PTA whose kind donation paid for the visit by Hobgoblin Theatre.

If you are parking in George Street please parking safely and legally. Please do not park on pavements or block residents' drives. Thank you.
