Monday- Calculation

Work out the area of this shape.

a

Each parcel weighs 500g.
What is the weight of four parcels in grams?

b

Draw all the lines of symmetry.
How many lines of symmetry does the shape have?

c

Write these fractions as decimals.

$$\frac{4}{10}$$

$$\frac{3}{4}$$

$$\frac{1}{4}$$

d

Write the coordinates for:

A
B
C

e

Solve the following using column multiplication.

$$\begin{array}{r} \text{£} \quad 0.64 \\ \times \quad 5 \\ \hline \text{£} \quad \end{array}$$

$$\begin{array}{r} \text{£} \quad 0.39 \\ \times \quad 6 \\ \hline \text{£} \quad \end{array}$$

g

I think of a number.
I divide it by ten.
I add eight.
The answer is 12.
What was my number? _____

h

How many hours in:

one day _____

one and a quarter days _____

f

Monday- Literacy

Today, please think carefully about your Easter Holiday and write all about what you did on your favourite day!

Use the paper on the next page.

Monday- Afternoon

L.O. To understand when events from Ancient Egypt took place on a timeline.

What events took place in Ancient Egypt?

What is a timeline?
Why are they useful?
When do we use timelines?

L.O. To understand when
events from Ancient Egypt
took place on a timeline

What events took place in Ancient Egypt?

What does BC mean?

B.C. stands for **Before Christ**, and it means the number of years before the time of Jesus Christ. That was about 2000 years ago

L.O. To understand when events from Ancient Egypt took place on a timeline

What events took place in Ancient Egypt?

5000BC

Around 5000BC, many Egyptians farmed sheep and cattle. Some Egyptians grew wheat and barley on the fertile land on the Nile valley.

4500BC

Around 4500BC, sails were used on Egyptian ships for the first time. Boats were

What events took place in Ancient Egypt?

3200BC

Around 3200BC, craftsmen began to create the first wall paintings using hieroglyphic symbols in the Egyptian writing system.

3000BC

Around 3000BC, walled towns and villages were built in Egypt. The first buildings were made of mud brick. At the museum you can see a terracotta model of an Ancient Egyptian House.

2520BC

Around 2520BC, Egyptians built the Great Sphinx and the Great Pyramid at Giza.

L.O. To understand when events from Ancient Egypt took place on a timeline

What events took place in Ancient Egypt?

1550BC

It was around 1550BC that many of the royal tombs were built in the Valley of the Kings. 1500BC - 332BC was the period of the 'New Kingdom'.

1325BC

Around 1325BC, King Tutankhamun was buried in the Valley of the Kings. In 1922 his tomb was discovered, inside were wonderful treasures and the mummy of the Pharaoh covered by a beautiful gold death mask.

332BC

In 332BC, Egypt was invaded by Alexander the Great and was then ruled by Greek Kings. The era of the New Kingdom ends.

L.O. To understand when
events from Ancient Egypt
took place on a timeline

What events took place in Ancient Egypt?

Interactive correct order here:

Or scroll version of events:

<http://www.historyforkids.net/timeline.htm> 

Timeline About: _____

Name _____

Timeline About: _____

Name _____

7,500 BC

The first settlers arrived in the Nile Valley.

3,200 BC

Hieroglyphs are used to keep trade records.

2,640 BC

The first pyramid is built.

2,555 BC

The Giza pyramids are built for the kings Kufu, Kharfe and Menkaure.

2,520 BC

The Great Sphinx is built.

2,200 BC

First ploughs are attached to oxen.

Cut out the small cards. Next stick the 2 timelines together to make 1 long one.

Now carefully order the cards and glue down.

Monday- Comprehension

British Science Week: Innovating for the Future

What Is Science?

Science is all about studying things to see how they work. In a science lesson, you might carry out an investigation. Science has inspired people to invent lots of amazing things. Without science, we would not have cars, computers or even electricity.

You will need:

- some materials;
- a strong bowl or hard surface;
- something to crush your ingredients with, such as a round pebble;
- a dust mask;
- a shallow bowl.

1

First, find some colourful materials, such as soil, plants or clay.

2

Choose one material and put it into your strong bowl or on a hard surface. While wearing your dust mask, crush the material. Stop when you have made a paste or a powder.

3

Then, put the paste or powder into your shallow bowl. Add water to the bowl so that the mixture is completely covered. Stir the mixture and leave it in a sunny window.

Make Your Own Paint Experiment

Innovation comes in many shapes and sizes. Become an innovator yourself by carrying out an experiment to make your own paint. When you've finished, don't forget to name your new colour!

.....

British Science Week: Innovating for the Future

What Is British Science Week?

British Science Week is an exciting event that lasts for ten days. Each year, over a million people take part in different activities.

.....

This year, the theme for British Science Week is 'Innovating for the Future'. Innovating means making changes to something. This could be by introducing new ways of doing something or by coming up with a new idea.

.....

Think about how things like computers, cars and aeroplanes have changed in the past 100 years. These changes wouldn't have happened without innovation.

4

When all of the water has been dried up by the sun, you will be left with paint powder. Add a tiny drop of water to the powder and try using it as paint on a piece of paper.

.....

5

Try the experiment again with a different material to see what other colours you can make.

Questions

1. How many days does British Science Week last for? Tick one.
 - ☐ seven days
 - ☐ eight days
 - ☐ nine days
 - ☐ ten days
2. Look at the instructions for making your own paint.
Number the instructions from 1-4 to show the order that they should happen in.
 - ☐ Choose one material.
 - ☐ Try the experiment again.
 - ☐ Put the paste or powder into your bowl.
 - ☐ Find some colourful materials.
3. What is the theme for this year's British Science Week? Tick one.
 - ☐ Everybody Loves Science
 - ☐ Innovating for the Future
 - ☐ Inventing New Colours
 - ☐ Science is Fun
4. Draw **three** lines and complete each sentence.

Innovating means...	many shapes and sizes.
Innovation comes in...	making changes to something.
Science is all about...	studying things to see how they work.
5. Look at the paragraph called **What Is Science?**
Find and copy one word which shows that science has made people **want to invent lots of amazing things**.

**British Science Week:
Innovating for the Future**

6. According to the text, how many people take part in different activities for British Science Week each year?

7. Would you like to take part in British Science Week this year? Explain your answer.

Tuesday- Calculation

Year 4 Maths Activity Mat 2 Spring 2

②

a Solve this problem mentally.

Leonne buys a comic for 55p and pays with £1. How much change will she have?

b $40 \div \boxed{} = 0.4$

$91 \div \boxed{} = 9.1$

$6 \div \boxed{} = 0.6$

c What is another name for a five-sided polygon?

d How many 5p coins in £25?

e Draw the reflection of this shape.

f Write four multiples of 6.

g Draw a bar chart on a separate piece of paper showing the favourite topics of Y4 children at Westward School.

Topic	Number of votes
Space	5
Dinosaurs	2
History	8
Jungle	3
Mountains	6

h Match the numbers to the corresponding Roman numerals.

XXXV	24
XL	35
XXIV	40

Tuesday- Maths

Follow the link below, watch the video and then complete the sheets on the next page.

<https://vimeo.com/517200721>

Recognise tenths and hundredths

- 1 The hundred square represents 1 whole.

What fraction of each hundred square is shaded?

- 2 Here is a hundred square.

What fraction of the whole does each represent?

a) 4 full rows =

b) 6 full columns =

c) 13 squares =

d) 2 full rows and 5 squares =

e) 3 full columns and 8 squares =

- 3 Complete the sentences.

a) 4 tenths is equivalent to hundredths.

b) 70 hundredths is equivalent to tenths.

c) 5 tenths is equivalent to hundredths or 1 _____

4

One row is one tenth and one column is one tenth, so if I colour one row and one column on my hundred square I will have shown 2 tenths.

Is Dexter correct? _____

Explain your answer.

You may use the hundred square to help you.

5

Tick the hundred squares with $\frac{23}{100}$ shaded.

6

Complete the part-whole models.

a)

c)

b)

d)

7

Annie

$$\frac{73}{100} = \frac{7}{10} + \frac{3}{100}$$

$$\frac{73}{100} = \frac{6}{10} + \frac{13}{100}$$

Ron

Who is correct? _____

How many ways can you partition $\frac{73}{100}$?

Tuesday- Literacy

Getting immersed in the story.

Read the story through, underline difficult vocabulary and discuss any words or expressions that might present a barrier to understanding, e.g. museum, guide, artefacts, scarab beetle, iridescent, Viking, desert, pyramid, oozed, palm trees, lined, exactly, procession, Anubis, afterlife, jackal, chant, throne, mask, carved images, hieroglyphs, comprehend, striding, stammered.

Try processing words in different ways. Provide simple, child-friendly definitions. List examples or synonyms and then try using the words in sentences. Some words, such as scarab beetle or palm trees, are easily explained by using an image. Use the words over a number of days for grammar games as well as rapid reading, spelling and when writing creative sentences.

L.O. To learn and retell a familiar story.

At the start of the story, how did Emily feel and how do we know?

Every year, class 5 went to visit the Fitzwilliam Museum and this year was no exception. The guide stopped at each display to tell the children about the different artefacts. It was only when they reached the Egyptian display that Emily became interested. **A scarab beetle caught her attention because its glittering flickered in the light. Its green and blue body shimmered li** iridescent gemstone and its elongated feelers stretched t **her**

Describe what it was about the beetle that caught her eye.

What does the author mean by 'this year was no exception'?

L.O. To learn and retell a familiar story.

As class 5 meandered into the Viking section, Emily waited. As soon as they had gone, she reached out and touched the beetle. She felt a hot, stabbing pain and withdrew her hand as if she had been stung. A moment later and ... she was standing at the edge of a desert. **Huge, sand-coloured pyramids jugged upwards while white birds above, calling. A vast river oozed by and tall palm trees lined its** Emily gasped for she knew exactly where she

Why do you think she touched the beetle?

How did she know so quickly where she was?

L.O. To learn and retell a familiar story.

What is the possible effect of the words 'rattles shivered' ?

A procession wound its way from the river towards Emily. At the front, a tall man dressed as Anubis (god of the afterlife), wearing a jackal's mask, strode towards her. Drums beat, rattles shivered and the procession sung a low chant. Six men carried a huge, golden stand on which there was a throne. A beautiful woman surveyed the procession from on high. She was the only person without a mask and she was staring right at Emily, pointing!

Where is the woman sitting and how do you know?
What does the fact that she has no mask suggest?

L.O. To learn and retell a familiar story.

Why does it say, 'without thinking' ?

Without thinking, Emily dashed towards a door set into the closest pyramid. Inside, it was cool, and as she ran down a passageway, torches burned to light the way ahead. On the walls, she saw carved images - an owl, fish, warriors and hieroglyphs that were hard to comprehend. She could hear voices shouting and the sound of running feet behind her but the way ahead was blocked! Spinning round, she found the jackal standing in her path. The mask seemed to grin.

How does the author make it seem as though Emily has no hope of escape?

It was cool inside. What does that suggest about outside?

Does the mask grin? Explain what you think the sentence is suggesting - what impression is the author trying to create?

L.O. To learn and retell a familiar story.

Explain the choice of the word, 'striding'.

Explore the story through drama

Something itched against her leg; a shiny beetle glimmered in the torch. Emily recognised the greens and reds glimmering in the torch. She reached down, touched the beetle and once again felt a sharp stabbing pain and... there she was, back in the museum Mrs Hardy striding towards her. "The museum has been closed half an hour. We're all in the coach. Where have you been, you lady?"

"In Egypt," Emily stammered, but Mrs Hardy did not look at all pleased with her answer.

Explain what Mrs Hardy thinks about Emily.

Why does the author use ellipsis?

The time-slip Scarab

Every year, class 5 went to visit the Fitzwilliam Museum and this year was no exception. The guide stopped at each display to tell the children about the different artefacts. It was only when they reached the Egyptian display that Emily became interested. A scarab beetle caught her attention because its glittering wings flickered in the light. Its green and blue body shimmered like an iridescent gemstone and its elongated feelers stretched towards her.

As class 5 meandered into the Viking section, Emily waited. As soon as they had gone, she reached out and touched the beetle. She felt a hot, stabbing pain and withdrew her hand as if she had been stung. A moment later and ... she was standing at the edge of a desert. Huge, sand-coloured pyramids jutted upwards while white birds circled above, calling. A vast river oozed by and tall palm trees lined its edge. Emily gasped for she knew exactly where she was.

A procession wound its way from the river towards Emily. At the front, a tall man dressed as Anubis (god of the afterlife), wearing a jackal's mask, strode towards her. Drums beat, rattles shivered and the procession sung a low chant. Six men carried a huge, golden stand on which there was a throne. A beautiful woman surveyed the procession from on high. She was the only person without a mask and she was staring right at Emily, pointing!

Without thinking, Emily dashed towards a door set into the closest pyramid. Inside, it was cool, and as she ran down a passageway, torches burned to light the way ahead. On the walls, she saw carved images - an owl, fish, warriors and hieroglyphs that were hard to comprehend. She could hear voices shouting and the sound of running feet behind her but the way ahead was blocked! Spinning round, she found the jackal standing in her path. The mask seemed to grin.

Something itched against her leg; a shiny beetle glittered. Emily recognised the greens and reds glimmering in the torchlight. She reached down, touched the beetle and once again felt a hot, sharp stabbing pain and... there she was, back in the museum with Mrs Hardy striding towards her. "The museum has been closed for half an hour. We're all in the coach. Where have you been, young lady?"

"In Egypt," Emily stammered, but Mrs Hardy did not look at all pleased with her answer!

Tuesday- Afternoon

Why is friendship important?

my life
PSHE for healthier, happier children

Zara and Ellie

Zara and Ellie are best friends. They go to dance class together. When they have playdates, they practise dancing and singing together, and put on shows for their parents. Ellie and Zara don't go to the same school, but they try to see each other every fortnight to play and at dance class every week. They love to make each other laugh and are always happy to see each other.

Aarav and Effie

Aarav and Effie are in Year 4. They both find spelling tricky and are working very hard to practise every day. They are in the same class and every morning they go to a different classroom with their teaching assistant to play spelling games and learn new letter sounds. One day at the start of term Effie was very upset. Effie told her teaching assistant how stupid she felt because she couldn't spell. Aarav told her that she wasn't stupid and that he found spellings tricky too. He suggested they try to learn them together and help each other. They both really enjoy 15 minutes each morning at school playing spelling games – and when it's wet play they play them together as well.

Meg and Paveen

Meg joined Paveen's class at the start of the school year and didn't know anybody. She felt very lonely and sad as she didn't want to leave her old school.

At break time on Meg's first day she was alone in the playground when Paveen asked her if she wanted to play. Meg said no as she didn't understand the game they were playing but Paveen said she would explain. Meg and Paveen have been friends ever since and Paveen has introduced Meg to lots of other friends. She even invited her to join the local choir, which Meg would never have had the courage to do without Paveen.

What makes you friends?

Think about the people you are friends with. What makes you friends?

Wednesday- Calculation

Year 4 Maths Activity Mat 3 Spring 2

3

a Write the measurements shown by each arrow in grams.

b Use the distributive law to find the product for this multiplication calculation.

$$71 \times 2$$

$$\square \times \square + \square \times \square$$

$$\square + \square = \square$$

c Put a cross through the number that is not a multiple of six.

36, 30, 25, 18, 24, 42

d A pile of eight identical books are 24cm tall. How wide is each book in mm?

e Start at $\frac{5}{10}$

Count on 3 tenths.

What fraction have you reached?

f A baker bakes 60 buns.

18 are sold in the morning and 32 are sold in the afternoon. How many buns are left?

g Using the formulae $P = 2(a+b)$, work out the perimeter of this shape. Show your workings.

h Plot and join these points to identify the shape:

(4,1)(4,3)(1,3)(1,1)

The shape is a _____

Wednesday- Maths

Follow this link and then complete the sheets on the next page.

<https://vimeo.com/516830789>

Tenths as decimals

- 1 Shade the bar models to represent the amounts.

a) 7 tenths

--	--	--	--	--	--	--	--	--	--

b) $\frac{4}{10}$

--	--	--	--	--	--	--	--	--	--

c) 0.3

--	--	--	--	--	--	--	--	--	--

- 2 Complete the table to show the fractions and decimals the bar models represent.

Bar model	Fraction	Decimal
		
		
		
		

- 3 Write each fraction and decimal in the correct place on the number line.

$\frac{2}{10}$

0.6

$\frac{9}{10}$

0.1

- 4 Work out the values of A, B and C.

Give your answers as fractions and decimals.

- 5 Match the equivalent fractions, decimals and words.

$\frac{3}{10}$

$\frac{1}{10}$

0.9

seven tenths

6 What is the total value represented by each ten frame?

7

Nine tenths
can be written 0.9, so ten
tenths must be 0.10

Do you agree with Ron? _____

Explain your answer.

8 Eight tenths can be represented in all of the ways shown.

Which do you think is the best representation? _____

Discuss your answer with a partner.

Represent six tenths in each different way.

Wednesday- Literacy

Pick either BF or AAF words to work through today.

L.O. To use a dictionary to explore the meaning of words.

Use a dictionary to find and record the definitions of the following words:

BF

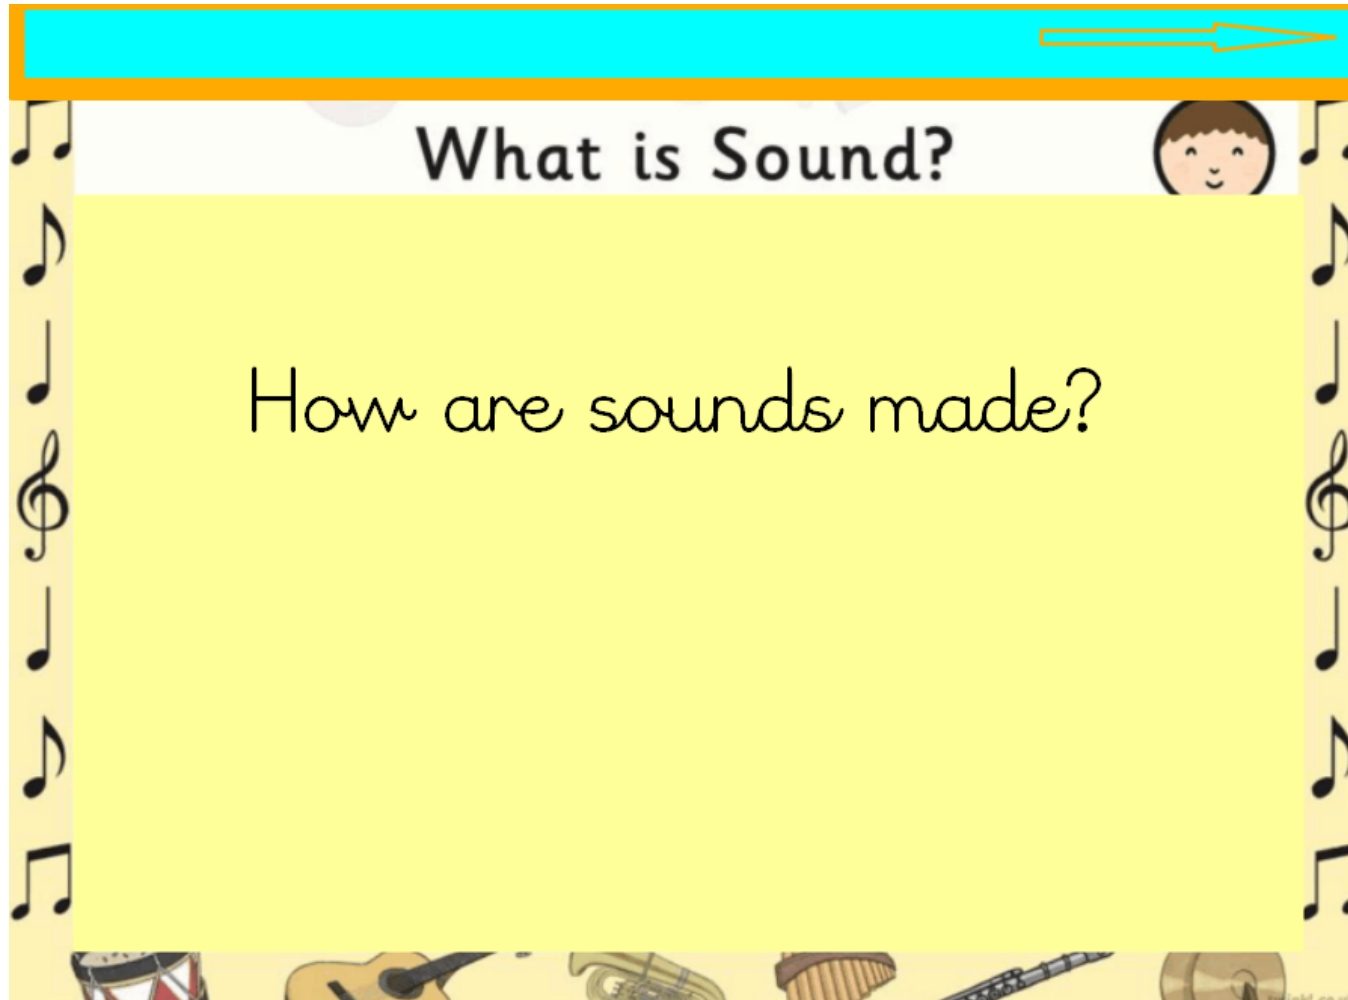

1. guide
2. artefact
3. juttred
4. oozed
5. procession

AAF / EF

1. guide
2. artefact
3. juttred
4. oozed
5. procession
6. surveyed
7. comprehend
8. elongated
9. feelers
10. iridescent

Now, put each word into a sentence.

Wednesday- Afternoon

What is Sound?

How are sounds made?

The worksheet features a yellow central area for writing, surrounded by a decorative border of musical notes and instruments. A red arrow points to a red box at the top.

What is Sound?

Think of some words to describe how the musical instruments are being played to make sounds.

Click on this image to play the video in a new window.

twinkl.co.uk

Link: <https://www.bbc.co.uk/bitesize/clips/zvrx2tfr>

What is Sound?

Did you come up with some words to explain how the musical instruments make sounds?

Look at the words below. Did you choose any of these words?

Vibrate

Vibration

Twang

Blow

Bang

Scrape

Shake

Pluck

Vibrations

All the instruments are played in different ways, but they all have something in common. They all create sounds by vibrating.

The strings of the guitar and the gopichand vibrate when they are plucked.

The pan pipes and horn are filled with air, which vibrates when they are blown.

The balafon and the bongos make sounds when they are hit or banged, causing the blocks or the skin to vibrate.

But what is a vibration?

How are sounds made?

We can see and feel vibrations whenever sounds are made.

Gently place your hand on your throat.

Say 'Ah!'

Can you feel the vibrations from your vocal cords?

Ahh

How are sounds made?

Place a few grains of rice on a drum skin and gently bang the drum.

What do you observe?

The grains of rice bounce on the drum skin when it is hit.

This is because the drum skin vibrates, and the vibrations pass to the grains of rice, which also vibrate.

Activity:

With your grown- up, go around your home, garden or a family walk. Write down some of the sounds you can hear around you.

Which are the LOUDEST?

Which are the QUIETEST?

Wednesday- Comprehension

An Extract from Howard Carter's Diary

4th November 1922

11 After the discovery of the first step, we exposed fifteen more
20 steps leading down to an ancient doorway, still sealed
31 after all these years. The name on the door was clear:
41 Tutankhamen. They say this tomb is cursed; they say that
49 the ancient pharaoh threatened anyone who disturbed his
62 peace in the afterlife but that will not stop me. For five years
72 we have been digging through the inhospitable desert and I
80 am finally about to make the most important
87 discovery of my life. At last, I
94 will be the one to unearth the
99 final resting place of Egypt's
102 youngest pharaoh. It
106 will be filled with
108 treasures beyond
110 anyone's wildest
111 dreams.

Quick Questions

1. In what year was this text written?

2. Do you think Howard Carter was scared? Use evidence from the text to support your answer.

3. Sum up the main points of this extract in 20 words or less.

4. What do you think happened next?

Thursday- Calculation

Year 4 Maths Activity Mat 4 Spring 2

4

Circle the equivalent statement:

a

$5 \times (3+7)$ is equivalent to:

1. $5 + 3 \times 5 + 7$
2. $5 + (3 \times 7)$
3. $5 \times 3 + 5 \times 7$
4. $5 \times 3 \times 7$

Place these decimals in the correct position on the line.

b

1.1, 0.4, 1.9, 1.0, 0.7, 1.3

Add 100 to these numbers:

c

375 _____

291 _____

678 _____

Complete:

d

$$\begin{array}{r} 427 \\ - 291 \\ \hline \\ 673 \\ + 243 \\ \hline \end{array}$$

Draw a right-angled triangle.

g

$\times 10 = 50$

e

$\div 3 = 5$

$\times 5 = 35$

$\div 2 = 12$

Assembly begins at 8:55 and ends at 9:25. How long does the assembly last?

h

Debbie builds six squares and four triangles with straws. How many straws does she use?

f

Lesson 1

LO: To explore the work of M C Escher

Lesson 1

LO: To explore the work of M C Escher

Hello, my name is Maurits Cornelis Escher.
I was a Dutch graphic artist. I loved to
use pencils and pens to create lots of
interesting and unusual patterns and pictures.

- * He was born in the Netherlands in 1898.
- * Lots of Escher's work was based on optical illusions, things that didn't look quite as they seemed.
- * He worked mostly in black and white.

Lesson 1

LO: To explore the work of M C Escher

Water and sky 1 (1938)

Hand with reflective sphere (1953)

Relativity (1953)

LO: To explore the work of M C Escher.

1

Name of artwork:
Drawing hands
(1948)

What is the artwork of?

What is unusual about it?

I like

I dislike

Drawing Hands (1948)

Waterfall (1961)

Lesson 1

LO: To explore the work of M C Escher

Have a go at recreating a piece of Escher's work.

Water and sky 1 (1938)

Hand with reflective sphere (1953)

Relativity (1953)

Drawing Hands (1948)

Waterfall (1961)

LO: To explore the work of M C Escher.

Name of artwork:

What is the artwork of?

What is unusual about it?

I like _____

I dislike _____

Friday- Calculation

Year 4 Maths Activity Mat 5 Spring 2

5

a On the 1cm squared paper, draw a rectangle with sides of 6cm and 2cm, and work out the perimeter.

b 48 litres + 23 litres =

700g + = 1kg

c Connie buys a present and card for £9.74.

The card costs £1.29. How much does the present cost?

d Which letter is at point:

(1,3) _____

(5,1) _____

(0,4) _____

(3,5) _____

5	G		Y	W		M
4	P	F		Z	S	I
3		R	L		A	X
2	V	J	E		O	
1	B	C	N	H		T
0		U		Q	K	D
	0	1	2	3	4	5

f Write four number statements, including + or - signs for these numbers: **66, 39, 27**

g There are 87 children in Y4.

One third of the children walk to school. How many walk to school?

e £ $\frac{8}{10}$ = p

£ $\frac{1}{10}$ = £ = 20p

h Graeme painted 421 paintings. He sold 259 of them.

How many did he have left to sell?

Friday- Maths

Follow the link below and then complete the sheets on the next page.

<https://vimeo.com/518282932>

Tenths on a number line

1 Fill in the decimal numbers on each number line.

2 Complete the number lines.

3 Here is a ruler with centimetres as whole numbers and millimetres as tenths.

Complete the sentences about points A, B and C.

Point A is cm along the ruler.

Point B is cm and mm along the ruler.

As a decimal it is cm.

Point C is cm and mm along the ruler.

As a decimal it is cm.

4 Complete the number lines.

5 How long is each line?

The line is cm long.

The line is cm long.

The line is cm long.

How would your answers have been different if given in millimetres?

6 Draw arrows to estimate the position of the numbers on the number line.

7 The triangle, circle and cross have the same value on both lines. Work out the values.

$\triangle = \square$ $\circ = \square$ $\times = \square$

Create your own problem like this for a friend.

Friday- Spellings

We enjoyed the orchestra's _____ during the school play.	intermediate	The astronaut sent an _____ SOS as his shuttle hurtled through space.	The zookeeper was very happy with how the new gorilla seemed to _____ with the others.	interfere	move back two squares	Miss McDonald caught the 9:02 _____ to Birmingham.	international	move back two squares
interact	<div>Mr Whoops' Prefix Spelling Game</div> <div> <p>You'll need:</p> <ul style="list-style-type: none"> - different coloured counters - a die - whiteboards <p>If you land on a square with a prefix inter- word, you must write a sentence containing that word or move back to where you came from. If you land on a square with a sentence, you must write down the prefix inter- word that is missing or move back to where you came from. First player to the finish line is the winner!</p>  </div>							Clara was moved up to the _____ swimming class.
We sign an _____ Safety Policy at school to ensure we use it correctly.								internet
interrupt								Miss a turn! 
intercity								intergalactic
Finish Start	The _____ airline is on strike so Mr Whoops cannot go on holiday today.	Miss a turn! 	"Please don't _____ with my project," the boy pleaded with his eager father.	intervene	interlude	It was necessary for the Y6 playtime buddy to _____ to prevent a fight.	move back two squares	"I am fed up with people who _____ me when I am working!" snarled Gina.

Friday- Literacy

L.O. To collect vocabulary to describe a portal object.

coffin

mask of Tutankhamun

scarab amulets

The long lost Ancient Egyptian necklace belonging to Queen Nefertiti

mummified cats

The long-lost brooch of an unnamed Queen

wooden cat statue

The long-lost Scarab bracelet of the first queen of Egypt

canopic jars

Book of the Dead

The long-lost axe of Ramses II

The long -lost ankh of Ra

L.O. To collect vocabulary to describe a portal object.

A scarab beetle caught her attention because its glittering wings flickered in the light. Its green and blue body shimmered like an iridescent gemstone and its elongated feelers stretched towards her.

He noticed an old gas mask because its wobbly eyes hung down. The strap had long since broken and the material seemed faded beyond repair.

T model writing
descriptive sentence
for a portal object.

Chn to select portal object
and write descriptive
sentences into their English
book.

L.O. To collect vocabulary to describe a portal object.

coffin

mask of Tutankhamun

mummified cats

wooden cat statue

canopic jars

Book of the Dead

scarab amulets

The long-lost brooch of an unnamed Queen

The long lost Ancient Egyptian necklace belonging to Queen Nefertiti

The long-lost axe of Ramses III

The long-lost Scarab bracelet of the first queen of Egypt

The long-lost ankh of Ra

Select one of the objects above and then write descriptive sentences all about it.

Friday- Comprehension

Get Ready with Cleopatra

11 To look as fabulous as me, follow these simple beauty steps.
22 First, bathe in milk and honey to keep your skin nourished
34 and soft. I scrub away the dead skin using sea salt and
47 then I like to use crushed green grapes to give my skin a
49 golden glow.

60 I usually keep my makeup quite simple and natural. I crush
72 up lapis lazuli stone to create a deep blue eye shadow base
83 and then I add some sparkle with little chunks of gold
92 pyrite. Next, I make my eyelashes and eyebrows darker
103 using charcoal and animal fat. Then, I just rub some red
115 clay into my lips and cheeks and I'm ready to head down
121 to the pyramids for the day.

Quick Questions

1. Through whose eyes is this text told?

2. Find and copy a phrase which shows that Cleopatra thinks that she looks good.

3. '*I usually keep my makeup quite simple and natural.*' What makes you think that this is not true?

4. Explain why Cleopatra does not use the same makeup products that women use today.
