

Year 5 Spring Term (2nd half) Homework

Maths

Continuing to have a solid knowledge of multiplication and division facts up to 12x12 remains the focus for children to work on at home (as well as at school).

The children love TTRockstars, so please make the most of this resource. Please ask if you can't remember your login details. There are lots of other games and activities online, too - have a go at some games on <https://mathsframe.co.uk/>. You can also verbally test them ... in the car, while cooking tea, anywhere, any time!

Reading

Please continue to actively encourage and support your child's reading journey by providing them with the time and comfortable space to read for pleasure - and to read with them whenever you can.

Remember to sign their reading record whenever they have read at home (a reminder that this must be at least 3 times a week).

Science- Earth and Space

A huge thank you, once again, for the fabulous homework 'Greek' related projects children completed and handed in. We love receiving them and it's great to show them off in class!

This term our science topic is, 'Earth and Space'. We are setting the children a challenge- to complete a moon diary for 30 days (or as close to this as possible). This will help to support our follow up work within class (looking for patterns in the shapes of the moon). Please can you support your child, and remind them, to keep observing and recording the shape of the moon. We will have spare copies of the moon diary sheet in class, if needed. We also emphasise that children should only complete this from their homes (garden/windows) under your supervision. Moon diaries will be sent via parent mail and children will be given a copy in class too.

Many thanks.
