

# Year 4 Autumn Homework

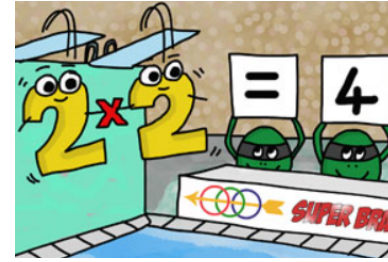

## Maths

With Times Tables being a big focus throughout Year 4, it is important to keep practising times tables at home. Regular practice of times tables will help build confidence and fluency! Here are some links to sites that help support the learning of different times tables:

1. <https://www.topmarks.co.uk/maths-games/7-11-years/times-tables>
2. <https://www.timestables.co.uk>
3. <https://mathsframe.co.uk/en/resource/s/resource/477/Multiplication-Tables-Check>

Please if you are unsure how to access any of these, speak to the class teacher – we are more than happy to help! 😊

## Maths Number Sense Booklet

We have also attached a Number Sense Multiplication booklet for the children to continue to practice their times tables at home. We all do this in class daily, and it is something the children love doing! Children have 2 minutes to complete the timestables (without skipping any). They can look at the answers as they go if they need to, so that their memory improves! They can self-mark after to see how well they have done.

Reading is very important and children must aim to read three times a week at home, and an adult needs to sign their reading record! Enjoy reading!

## Topic: The Ancient Egyptians

Our first Topic in Year 4 is exploring all about the Ancient Egyptians. After our Egyptian Day of finding out lots of fascinating facts, we thought we would set the task to try and create one of the following:

1. A mummification wheel, explaining the mummification process.
2. A fact file on Ancient Egypt.
3. An Ancient Egypt board game, featuring the journey of the River Nile.
4. An Ancient Egyptian timeline.
5. Any other idea of your own!

We can't wait to see your amazing Ancient Egyptian masterpieces!

**Due in date: Friday 7<sup>th</sup> November**
