How to Draw a Bird

Step by Step Instructions

You are going to learn how to draw a bird in flight. You will need to use a pencil and draw the shapes lightly to start with, as some lines may need to be rubbed out later.

Step 1

1. Draw the first oval in the middle of the piece of paper. This will be the bird's trunk.
2. Then draw a triangle at the bottom of the oval - a bird's tail.
3. Add two arched lines for the outstretched wings. Make sure there's a wide V-shape between them.

Step 2

1. Draw the lower parts of the wings. The wings should look like two leaves.

Step 3

1. Draw a smaller oval on top of the body for the head.
2. In the middle of that oval, draw a bird's eye.
3. Next, draw a blackbird's beak on one side of the head - blackbirds' beaks are quite sharp and pointed.

Step 4

1. Finally take your time drawing in the feathers. They are mainly along the bottom of the wings and the tail. Not all over the body and head.
2. Each feather must be stretched outwards and become thinner and smaller at the top.
3. Finally, draw the tiny legs and claws.

Rub out any lines you don't need as you go along - don't be afraid to rework your drawing at any stage.

You might need two or three attempts to get it exactly how you want it.

Pebble Art

You will need:

- A smooth pebble, big enough to draw on.
- Paint – poster paint or acrylic paint is best.
- A permanent marker pen.
- Paintbrushes – thin ones are best as you can add more detail.
- Clear varnish - nail varnish would work.

Pebble art has become a really popular hobby. People decorate pebbles and then hide them in all kinds of places, such as parks, beaches and even shopping centres. When you go on a pebble hunt, you can either keep the pebbles you find or hide them again for someone else to find. You could get the adult with you to take a photo of a pebble if you are going to re-hide it. There are Internet groups on social media where an adult could post a photo of the pebble you have found.

1. Paint your design. You may wish to add outlines using your marker pen.
2. Once the paint is dry, you might want to add this message on to the back of your pebble: 'Pebble Art. Keep me or re-hide me.' You could get an adult to do an Internet search to find a local pebble art group and find out what message they put on pebbles.
3. Once everything is dry, cover the entire pebble in clear varnish.
4. Hide the pebble, perhaps in somewhere like a park.
